## **Environmental Sustainability Policy**

Kilberry Computing Limited trading as iAccess recognises that its activities have the potential for both positive and negative impacts upon the environment at local, national and global levels. The company acknowledges its responsibility for environmental protection and also aims to contribute to the national commitment to sustainable development. The positive environmental sustainability aspects of research and teaching and learning will be promoted. iAccess will seek to achieve continual improvement in how it understands and responds to its environmental impacts.

iAccess commits itself to:

- Communicate its environmental policy and strategy to staff, students and other stakeholders and to raise awareness amongst these groups of their own environmental responsibilities and requirement to commit to environmental improvements;
- Comply fully and where possible exceed standards set in relevant UK and international regulatory requirements and agreements;
- The reduction of hazards, prevention of injury, ill health, protection of the environment, including prevention of pollution, sustainable resource use, climate change mitigation and adaptation, the protection of biodiversity and ecosystems and any other specific commitments which are relevant to the context of the organisation;
- Maintain a travel plan to reduce single occupancy vehicle use to our sites; implement measures to encourage walking, cycling and the use of public transport as principal modes of commuting and business travel for staff, learners and visitors;
- Reduce waste created and where possible to reuse and recycle before responsible disposal of surplus materials; to use recycled and recyclable materials wherever possible;
- Strive to satisfy the requirements of all of our customers, stakeholders and interested parties whenever possible, meeting and exceeding their expectations;
- Refurbish and develop the organisation in a manner that avoids negative environmental impacts and enhances the local environment;
- Avoid or limit wherever practical the use of environmentally-damaging substances, materials and processes;
- Work with local, regional and national partners to realise environmental projects;
- Provide all the resources of equipment, trained and competent staff and any other requirements to enable these objectives to be met;
